[1] Not all products are available in every country/region. Please contact your sales representative for more information.
[2] Measured using ISO/IEC 24734, excludes first set of test documents. For more information, see hp.com/go/printerclaims.com. Exact speed varies depending on the system configuration, software application, driver, and document complexity.
[3] Purchase of optional paper trays required to reach maximum input capacity.
[4] HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.
[5] Measured using ISO/IEC 24734 in non-default general office print mode. Default professional print mode speed, measured using ISO/IED 24734, is 20 ppm less than general office print mode.
[6] Optional input and output accessory availability varies by device.
